MADE IN ITALY

L'intero ciclo produttivo dei nostri componenti è totalmente realizzato in Italia. Gli articoli vengono sottoposti a controlli accurati e per la maggior parte timbrati a gravità pressofusa con la certificazione "Made in Italy", sinonimo di autenticità e qualità certificata e garantita nel tempo.

The entire production cycle of our components is done completely in Italy. The items are submitted to accurate controls and the most are signed with gravity die casting with the certification "Made in Italy", synonym of authenticity and certified and guaranteed over the time quality.

Le nostre radici, la nostra forza

Framon Components è il frutto di una storia quasi centenaria: affonda le sue radici nell'azienda fondata da Antonio Montini nel 1930 a Lumezzane, trasformata poi negli anni settanta dai figli del fondatore in Framon S.p.A. e nel tempo ulteriormente sviluppatisi grazie ad acquisizioni di marchi prestigiosi, fino a presentarsi oggi come Framon Group, leader europeo nella realizzazione di prodotti e componenti nel settore dell'illuminazione. Framon Components è quindi uno dei marchi aziendali da cui è costituito il gruppo Framon, dal quale eredita i valori di una qualità e di uno stile produttivi consolidati nel tempo.

La Nostra Missione, Il Nostro Impegno

Framon Components nasce come azienda interamente dedicata alla produzione di componenti in fusione per l'illuminazione, con l'obiettivo di contribuire a razionalizzare la presenza di Framon Group sul mercato nazionale e internazionale e di offrire così ulteriori vantaggi alla clientela.

La nostra missione è la prosecuzione di un lavoro che oggi s'intende incrementare grazie alla competenza acquisita in decenni di impegno professionale altamente qualificato, all'impiego di livelli tecnologici e di informatizzazione sempre più elevati, alla capillare rete vendita internazionale di cui possiamo avvalerci all'interno del gruppo Framon.

Tradizione e qualità del made in italy

Framon Components si sviluppa quindi all'interno della tradizione manifatturiera italiana, rinnovando quotidianamente l'esperienza di quel Made in Italy che è sinonimo di eccellenza: tutte le fasi di lavorazione dei prodotti, dallo stampaggio dei semilavorati, alla preparazione per la verniciatura, all'eventuale verniciatura vera e propria in polveri epossidiche; dall'immagazzinamento allo stoccaggio, sono svolte all'interno delle nostre unità produttive e rispondono ai più elevati standard qualitativi secondo i principi del Total Quality Management.

Prodotti e progetti per indoor & outdoor

Framon Components produce una vastissima gamma di componenti nel settore illuminazione per esterni e per interni, residenziale e urbana, realizzati esclusivamente con l'utilizzo di materie prime di alta qualità, con una selezione accuratissima di materiali eco-compatibili e una spiccata attenzione alle esigenze ecologiche contemporanee. Oltre ai più di 15.000 articoli e derivati già a catalogo e pronti a magazzino per il cliente, Framon Components è in grado di sviluppare e produrre nuovi articoli su specifiche necessità e richieste, partendo da eventuali prototipi, creando progetti e stampi per la realizzazione del prodotto finito.

Fondere, trasformare, creare

Framon Components si avvale di alcune tra le più importanti tecnologie di trasformazione della materia prima: dalla pressofusione alla fusione in conchiglia, con o senza anima; allo stampaggio a caldo di materie prime diverse come alluminio, ottone, zama, materie plastiche. Framon Components è in grado di eseguire qualsiasi tipo di lavorazione meccanica sulle fusioni prodotte, utilizzando macchinari tecnologicamente avanzati e continuamente rinnovati, come complessi transfer, torni a controllo numerico e centri di lavoro.

Framon Components propone i propri articoli con una finitura superficiale che si ferma volutamente al primo stadio di burattatura o di sabbiatura; ma fornisce anche i componenti prodotti con la tipologia di finitura espressamente richiesta dal cliente.

Una partnership sicura e vantaggiosa

Tradizione e innovazione, qualità e competitività del prodotto, capacità imprenditoriale e affidabilità, fanno di Framon Components un partner importante per tutte le aziende operanti nel settore dell'illuminazione e dell'arredamento. Framon Components non offre solo prodotti: grazie anche alle risorse e alle competenze condivise con l'intero gruppo Framon, è in grado di offrire un servizio integrale qualificato, collaborando nello sviluppo di nuovi progetti, accompagnando il cambiamento produttivo e culturale necessario per affrontare le nuove realtà del mercato. Framon Components è quindi una moderna realtà capace di un'offerta ricca di nuovi e importanti vantaggi per la sua clientela.

Our roots, our power

Framon Components is the product of an almost thousand-years old history which has its roots in the company founded by Antonio Montini in 1930 in Lumezzane, then transformed in the Seventies by his sons in Framon S.p.A. and developed during the time thanks to the acquisition of prestigious brands, until showing today as Framon Group, European leader in the manufacturing of products and components for the lighting sector. Framon Components is then one of the company brands of the Framon group, from which inherits the values of quality and long-time established production style.

Our mission, our commitment

Framon Components is born as a company entirely dedicated to the production of lighting casting components, with the goal to contribute to rationalize the presence of Framon Group in the national and international market and offering further advantages to the customers.

Our mission is going ahead with the work, which today is expected to increase thanks to the competence acquired during decades of high-qualified professional commitment, the usage of higher and higher technological and digital levels, the widespread international sales network, which we can take advantage on in the Framon group.

Tradition and quality of Made in Italy

Framon Components develops inside the Italian manufacturing tradition, renewing every day the experience of that Made in Italy which is synonym of excellence: all the products processing steps, from semifinished products casting, the preparation for the paint process, the possible real paint with epoxy powder coatings, warehousing, to storage, are done inside our production units while meeting the highest quality standards according to the principles of Total Quality Management.

Products and Projects for indoor & outdoor

Framon Components manufactures a very wide range of components in the indoor and outdoor lighting sector, residential and urban settings, using high quality raw materials and selecting eco-compatible materials and paying deep attention to the contemporary environmental requirements. With more than 15.000 items and derivatives already in the catalogue and ready in the warehouse for the customer, , Framon Components can develop and manufacture new items based on specific needs and requests, starting from possible prototypes, creating projects and moulds for the realization of the finished product.

Casting, transforming, creating

Framon Components takes advantage from some of the most important raw material transformation technologies: from die casting to shell casting, with or without core, to hot stamping of different raw materials, such as aluminium, brass, zamak, plastic materials. Framon Components can do every type of mechanical work on the casting produced, using technological innovative machinery and continually renewed, like complex transfers, numerical control lathes and machining centres.

Framon Components offers its own items with a superficial finishing which intentionally stops at the first step of tumbling or sandblasting; but supplies also the manufactured components with the finishing requested by the customer.

A convenient and safe partnership

Tradition and innovation, quality and competitiveness of the product, entrepreneurial ability and reliability make Framon Components an important partner for all the companies in the lighting and furniture sector. Framon Components does not offer just products: thanks to the resources and the competences shared with the entire Framon group, it can offer a complete and qualified service, cooperating in the development of new products, accompanying the manufacturing and cultural change necessary to face the new realities of the market. Framon Components, then, is a modern reality which offers new and important advantages for its customers.

Caratteristiche e Finiture

Materiali componenti:
Pressofusione di ottone

Materiali diffusori:
PC Policarbonato: Chiaro Trasparente - Opale

PMMA per Globi/Sfere: Opale - Trasparente

Vetro

Riflettori - Frangiluce: Alluminio anodizzato

Box elettrici: Polipropilene

Guarnizioni: Silicone espanso -Silicone stampato

Viteria: Acciaio inox

Gli articoli sono tutti in pressofusione di ottone senza finitura.

Il codice -OTT si riferisce quindi all' OTTONE GREZZO

Sono disponibili a richiesta nelle seguenti finiture:

OTTONE BRILLANTATO
(ES COD 1000-OTT-R)

OTTONE SATINATO
(ES COD 1000-OTT-S)

OTTONE CROMATO
(ES COD 1000-OTT-C)

Features and Finishings

Lantern components materials:
die-cast brass

Diffusers materials:
PC Polycarbonate: Clear transparent - Opal

PMMA for Globes/Spheres: Opal - Transparent

Glass

Reflectors - Lightframes: Anodized aluminium

Electrical box: Polypropylene

Gaskets: Expanded silicone - Moulded silicone

Scews kit: Stainless steel

The catalog items are in die cast brass.

The code -OTT it refers at RAW BRASS

On request, they are available in the following finishings:

MACHINED POLISHED BRA
(ES COD 1000-OTT-R)

SATINED BRASS
(ES COD 1000-OTT-S)

CHROME-PLATED BRASS
(ES COD 1000-OTT-C)

TABULA

093-005

093-006

Caratteristiche materiali plastici

Sistema di assemblaggio a "baionetta" estremamente veloce, semplice e coperto da brevetto N° M 97 11 695.5
Resistenza alle nebbie saline e ai raggi U.V. Modularità dei componenti per l'assemblaggio nelle varie versioni

Materiali componenti lanterne:

Prolipropilene caricato fibra 40% (Nettuno)
Prolipropilene 40% (Terra)
Nylon PA6 (Giove - Capsula)
Nylon 6.6 (Marte - Urano - Saturno - Venere - Mercurio - Optagon - Prisma - Sirius)

Colori: Nero - Verde - Grigio - Bianco

Materiali diffusori:

PC Policarbonato: Chiaro Trasparente - Opale

PMMA per Globi/Sfere: Opale - Trasparente

Vetro

Riflettori - Frangiluce: Alluminio anodizzato o Polycarbonate bianco (Giove - Capsula)
ABS Cromato o ABS Bianco (Terra)

Struttura interna pali: Estruso di alluminio UNI EN 573-3

Box elettrici: Polipropilene

Guarnizioni: Silicone espanso - Silicone stampato

Viteria: Acciaio inox

Plastic materials main features

"Bayonet" assembling system extremely fast, easy and certify by patent N° M 97 11 695.5
Salt spray and U.V. rays resistant Modular structures for assembling in various versions

Lantern components materials:

Polypropylene fiber charged 40%: (Nettuno)
Polypropylene 40% (Terra)
Nylon PA6 (Giove - Capsula)
Nylon 6.6 (Marte - Urano - Saturno - Venere - Mercurio - Optagon - Prisma - Sirius)

Colours: Black - Green - Grey - White

Diffusers materials:

PC Polycarbonate: Clear transparent - Opal

PMMA for Globes/Spheres: Opal - Transparent

Glass

Reflectors - Lightframes: Anodized aluminium or White polycarbonate (Giove - Capsula)
Crome plated ABS or White ABS (Terra)

Internal post structure: Profiled AL Aluminium

Electrical box: Polypropylene

Gaskets: Expanded silicone - Moulded silicone

Screws kit: Stainless steel

Caratteristiche dei materiali

Materiali componenti:

Pressofusione di alluminio lega ENAB46100

Pali:

Estruso di alluminio UNI EN 573-3

Materiali diffusori:

PC Policarbonato: Chiaro Trasparente - Opale

PMMA per Globi/Sfere: Opale - Trasparente

Vetro

Riflettori - Frangiluce: Alluminio anodizzato

Box elettrici: Polipropilene

Guarnizioni: Silicone espanso - Silicone stampato

Viteria: Acciaio inox

Materials main features

Lantern components materials:

ENAB46100 die-cast aluminium

Poles:

Extruded aluminium UNI EN 573-3

Diffusers materials:

PC Polycarbonate: Clear transparent - Opal

PMMA for Globes/Spheres: Opal - Transparent

Glass

Reflectors - Lightframes: Anodized aluminium

Electrical box: Polypropylene

Gaskets: Expanded silicone - Moulded silicone

Screws kit: Stainless steel

11611-A *Box 7195-A pag. 293
Base - Base

11612-A
Base esagonale - Hexagonal base

11613-A *Box 7185-A pag. 293
Base tonda - Rotund base

11650-A
Raccordo tra 11603-A e 11605-A
Joint between 11603-A and 11605-A

11640-A
Base esagonale grande
Hexagonal large base

11514-A
Dima di fissaggio 11640-A
Fixing accessory 11640-A

11680-A

Terminale per tubo esagonale 50mm
Tube top end for pole 50mm

UTILIZZO 11680-A
11680-A USE

11681-A

Raccordo - Connection

UTILIZZO 11681-A
11681-A USE

5670-A

Giunto - Joint

11670-A

Coperchio per - Cover for
11671-A / 11671-A-2 / 11671-A-3

11671-A

Centro polo senza fori
Center pole without holes

11671-A-2

Centro polo 2 luci
Center pole 2 lights

11671-A-3

Centro polo 3 luci
Center pole 3 lights

11672-A

Coperchio per 11607-A-2 / 11607-A-3
Cover for 11607-A-2 / 11607-A-3

11607-A-2

Centropalo 2 luci
Center pole 2 lights

11607-A-3

Centropalo 3 luci
Center pole 3 lights

11673-A

Raccordo per 11607-A-2 / 11607-A-3
Joint for 11607-A-2 / 11607-A-3

11673-A-2

Raccordo forato e filettato
per 11607-A-2 / 11607-A-3
Joint with thread and holes
for 11607-A-2 / 11607-A-3

**UTILIZZO 11670-A + 11671-A / -A-2 / -A-3
11670-A + 11671-A / -A-2 / -A-3 USE**

**UTILIZZO 11672-A + 11607-A-2 / -A-3 + 11673-A / -A-2
11672-A + 11607-A-2 / -A-3 + 11673-A / -A-2 USE**

11660-A

Raccordo esterno per tubo esagonale e tondo
Outside connection for hexagonal and round tube

11661-A

Raccordo interno per tubo esagonale 50mm
Internal connection for hexagonal tube 50mm

UTILIZZO 11660-A + 11661-A

**11601-A**

Tubo esagonale con fresatura
Milled hexagonal tube

**11604-A**

Tubo esagonale liscio
Smooth hexagonal tube

**11605-A**

Tubo esagonale liscio
Smooth hexagonal tube

**11602-A**

Tubo esagonale rigato
Striped hexagonal tube

**11603-A**

Tubo esagonale rigato
Striped hexagonal tube

Utilizzo Tubi Ambiance - Ambiance Poles Use

**11621-A**

Prolunga per - Pole extension for 11620-A

**11606-A**

Tubo esagonale - Hexagonal tube

**11620-A**

Base per palo - Pole base

**11622-A**

Finestra per - Window for 11620-A

**9975-A**

Kit di fissaggio per - Fixing kit for 11620-A
